

Privacy Policy

Universal Device Terminal Pro

Last Updated: July 16, 2026

Overview

Universal Device Terminal Pro is designed with privacy as a core principle.

The application operates locally on your computer and does **not** collect, store, transmit, or share any personal information or usage data.

No account is required to use the application.

Information We Collect

We do not collect any information, including but not limited to:

- Personal information
 - Name or email address
 - Phone number
 - Device identifiers
 - IP address
 - Location information
 - Usage analytics
 - Telemetry
 - Crash reports
 - Advertising identifiers
 - Cookies
 - Background tracking
-

Serial Communication

Universal Device Terminal Pro communicates only with the devices that **you explicitly connect** (such as USB Serial, UART, or other supported interfaces).

All communication occurs directly between your computer and your connected device.

No serial data is transmitted to us or to any third party.

Local Storage

The application may store the following **locally on your computer**:

- Application settings
- User preferences
- Window layout
- Saved logs (only when you choose to save them)
- Configuration files

These files remain entirely under your control and are never uploaded automatically.

Internet Access

Universal Device Terminal Pro does not require an internet connection for its core functionality.

If future versions include optional online features (such as update checking), those features will be clearly identified and will not collect personal information without your knowledge.

Third-Party Services

The application does not use:

- Google Analytics
 - Microsoft Analytics
 - Telemetry SDKs
 - Advertising SDKs
 - Cloud databases
 - User tracking services
-

Data Sharing

We do not sell, rent, trade, or share any user data because we do not collect any user data.

Children's Privacy

Universal Device Terminal Pro does not knowingly collect information from anyone, including children under the age of 13.

Security

Because the application does not collect or transmit personal information, there is no user data stored on our servers.

You remain responsible for protecting any files or logs that you choose to save on your own computer.

Open Source

If the source code is available on GitHub, users are welcome to inspect it to verify the application's behavior.

Changes to This Privacy Policy

If future versions introduce features that affect privacy, this policy will be updated accordingly.

The "Last Updated" date at the top of this document will also be revised.
